## Certification of Qualified Enterprise Zone Contribution

This form certifies the receipt and value of a contribution to a project for an enterprise zone purpose as approved by the State Economic Development Commission. This certificate provides an estimated credit; the actual credit earned may differ from the amount certified on this form. The actual credit rate earned is contingent on the mix of cash and in-kind donations made to all eligible projects during the tax year.

To claim an Enterprise Zone credit, the taxpayer must electronically file an income tax return and the Enterprise Zone Credit and Carryforward Schedule (DR 1366) Pursuant to C.R.S. 39-30-103.5(7) along with this certificate. Information on the source and amount of enterprise zone contributions may be disclosed as a public record.
